Company Overview

About us

PT Kinan Cahaya Dialis specializes in providing hemodialysis machines and a comprehensive range of consumable products to support dialysis services.

With over 13 years of experience in the hemodialysis industry, we are committed to providing reliable solutions and comprehensive support to healthcare institutions, including hospitals and clinics. Through our products and services, we strive to help healthcare providers deliver effective, reliable, and high-quality care to dialysis patients.

About KCD

Vision

To be Indonesia's leading provider of comprehensive hemodialysis equipment, delivering high-quality products and innovative solutions that support better dialysis care and patient outcomes.

Mision

01 Providing hemodialysis ecosystem solutions.
